

Growing a Healthy New York: Innovative Food Projects that End Hunger and Strengthen Communities.

Manual Order Form

The Hunger Action Network of NYS and the Statewide Emergency Network for Social and Economic Security (SENSES) have developed a manual titled "Growing a Healthy New York: Innovative Food Projects that End Hunger and Strengthen Communities." This manual features programs that promote economic development, provide job training to youth while increasing the amount of fresh food available in communities, increase participation in federal nutrition programs, and unite people with local farmers. The manual details 24 different programs from across New York State, including how community leaders and organizations started the programs and how they currently operate. Growing a Healthy NY provides many great ideas about projects that can be duplicated in your own community and it also connects you to information resources to get you started. This manual is perfect for community based groups, faith groups, food programs, and community leaders who are working to end hunger and support their community.

Canticle Farm produce, Allegany, NY.

Please fill out this form to receive a free copy of the manual. You can also download it on our website.

Please send us the Growing a Healthy New York Manual.
