

Farmers Market Wireless EBT Capability

Some farmers are accepting EBT through their own wireless hand-held terminals. Another method, known as the token system, enables Food Stamp customers to purchase tokens from the market with their benefits and then purchase food from any vendor within the market.

Help support New York farmers and promote the Food Stamp Program! Check out the following markets that accept Food Stamps. Contact Hunger Action if you would like to distribute customized flyers that promote your local farmers' market.

Thanks to the Farmers' Market Federation of NY for compiling the below list. Their mission is to support and promote the viability of farmers' markets through innovative services, programs and partnerships that maximize the benefits of markets to sellers, buyers and communities. Check them out on the web at www.nyfarmersmarket.com or call them at 315-475-1101.
